

MPPA FUN FLYER

February / 2003

Volume 6

Issue 2

Jungle Queen Cruise, a huge success!

PRESIDENT'S CORNER FEBRUARY 2003

For the third time in the last five years, MPPA has used the Jungle Queen for our annual party. Some of us who had been there before had to endure the same old jokes and entertainers again, but it were still a lot of fun. At least the weather co-operated this time. It looked early on as if the temperatures were dropping and we may experience a cold night as we did before, but it turned out to be a pleasant evening. I did get several compliments from some of our new members, that they had a great time. I guess when you live in the western part of the county or south down in Dade; they were not aware of the Ft. Lauderdale sights and really enjoyed the ride up the New River. Thanks go to Jack Goldfarb and Jerry Carley for well-organized trip.

The new field in Pompano at the landfill sight is open and working very well. Some of us have been going out there in the afternoon and flying to our hearts content. If your interested in using the facility, see me for a pass and schedule an orientation, it is a big place and you should be with someone, the first time you go. Dan and Al Norris have a body shop across the street from the landfill and have volunteered to help out if I can't make it, their number is 954-970-8504, call them first before you go.

We have a night fly scheduled for the first of March. That is a Saturday night; it begins at

dusk and ends around ten pm. If you have never tried to fly at night, get yourself a good flying plane and give it a try, it is easier than you think. If you don't want to fly, at least come out and watch, we will have lots of food and you can hang out with your fellow members.

March 22nd and 23rd will be our first race of the year. This will be for Q-500 using the 428 and 424 AMA rules. We will also be holding a Quarter Midget race at the same time. If you are new to racing the 424 class is a good entry-level event. All you need is a stock 40-size engine and a Quickie style airplane. Lanier makes a Predator, which can be built in a few hours and flies very well. We will need about twenty people to hold this race, so if you

are not entered, please sign up to help us at the next meeting.

Our next meeting is at the usual place, across from the field at the New River Civic Center, at 7:30 PM. I will have some more Powermaster fuel with me; however, the price has gone up slightly to \$15.00 per gallon. See you at the field

Your President

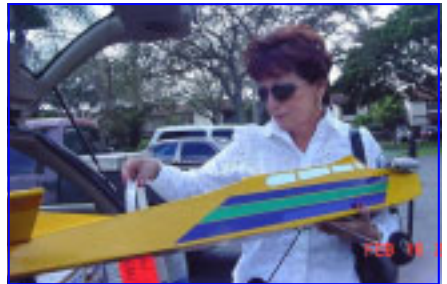

Jim Perdue
